

## ***Chain and Bar Oils***

Product codes s4290/1/3, Dec, 2017

### **Description :**

Synforce Chain and Bar Oil is a very tacky bar lube oil, blended to satisfy the stringent demands of the saw mills and commercial chainsaw operators in the timber cutting industry

This product contains special additives to resist fling-off, and has enhanced extreme pressure properties, giving extended life to the chain and bar.

Chain & Bar Oil also contains surface wetting agents that displace moisture from sappy timbers.

Chain & Bar Oil is available in 3 different viscosities

### **Recommendation :**

May be used in all chain saws and on open chains where they require lubrication.

### **Properties :**
