

## ***GearSYN 50E***

### **Synthetic SAE 50 Gear Oil**

Product code s3268, Dec, 2017

#### **Description ;**

GearSYN 50E is made from PAO/Ester synthetic base oils for use in Eaton Roadranger gearboxes and Rockwell transmissions as well as automotive and industrial applications where extreme pressure properties are not required.

The extremely high viscosity index and very low pour point provide a tough, highly adhesive film to give superior protection to gear teeth and bearings against wear.

GearSYN 50E can also be used where manufacturers recommendation is for API service GL-1 gear oil.

GearSYN 50E can be used to lubricate various manual transmissions, spiral bevel axle assemblies and worm gear drives on commercial, farm and truck equipment.

#### **Typical Characteristics ;**

API	GL-1, CD
SAE (gear)	50
Viscosity, cSt at 100°C	17.6
Viscosity Index	Greater than 150
Flash Point, COC °C	210
Pour Point, °C	Less than minus 25

Available in ;                      205 Lt, 20 Lt
