

HFP Degreaser

Product code s8115, June 10, 2004

DESCRIPTION

HFP Degreaser is a High Flash Point, water soluble, solvent based concentrated degreaser.

Having a flash point greater than 67° C., makes this product extremely safe to use, whilst outperforming most conventional solvent based degreasers.

This product is not classed as "Flammable Goods":

HFP Degreaser can be used in parts washers that do not have the solvent "sitting" on water.

APPLICATION & DIRECTIONS FOR USE

HFP Degreaser is designed for cleaning and grease removal from all hard surfaces such as engine components, machinery etc.

For normal use, spray or brush on, leave for a few minutes and wash off with water.

PACKAGING

Packaged in 5, 20 and 205 Litre NDG metal Containers.

SPECIFICATIONS

Flash Point: (Deg C)	> 67° C.
Boiling Point: (Deg C)	195 deg° C
Vapour Pressure: @ 15° C	not determined
Specific Gravity: @ 25° C	0.792
Solubility in Water	miscible
Flammability Limits:	Not determined

Available in 5, 20 and 205 litre
