

SeaPRO Hy Steer 10

Product code s7410, June 10, 2010

Description

Synforce SeaPRO Hy Steer 10 is an SAE 10w synthetic hydraulic steering fluid offering advanced protection and performance under all conditions in hydraulic steering systems requiring an SAE 10w grade fluid.

SeaPRO Hy Steer 10 offers excellent low temperature flow and as a result of the very high viscosity index will resist the effects of elevated temperatures and pressures on viscosity

Recommendations

SeaPRO Hy Steer 10 is recommended in Teleflex Morse, Sea Star and other hydraulic steering systems requiring an SAE 10w high viscosity index fluid.

Typical Properties

Viscosity, Cst @ 40 deg. C,	32
Viscosity , Cst@ 100 deg. C,	7
Viscosity Index	189

Meets or Exceeds

SAE	10w
