

TransGEAR 75w/90 GL5

July 10, 2010

Description;

TransGEAR 75w/90 is a wide viscosity range, automotive gear oil built on Group 2 technology offering improved thermal and oxidation stability and is particularly suited to transaxles incorporating hypoid gears.

TransGEAR 75w/90 also offers improved cold start lubrication over traditional 80w/90 fluids and may be used where 75w/85, 80w/90 and 75w/90 GL5 fluids are called for.

Recommendations;

- Manual transaxles, manual transmissions where API GL5 is recommended,
- Selected Mercedes Benz, MAN, ZF, DAF, Eaton and Scania applications

TransGEAR 75w/90 is NOT suitable for limited slip differentials.

Typical Properties

API		GL5, MT-1
SAE		75w/90
Viscosity	cst @ 40 deg C.	109
	cst @ 100 deg C.	15
Viscosity Index (typical)		143
Density	@ 15 deg C.	0.865
