

Two Stroke motor Oil

Product code s2505, June 10, 2004

Description ;

Synforce two stroke motor oil has been developed to meet the demands of modern high performance air cooled two cycle engines. It is not recommended in two stroke Outboard engines.

The technology utilized in Synforce Two Stroke provides exceptional performance for a mineral oil based two-stroke product.

Synforce Two Stroke is fully compatible with all common elastomer seals, preventing problems commonly encountered through oil leakage and power loss, and is recommended for both leaded and unleaded fuels.

Specifications ;

Viscosity @ 40 deg C	61 cst
Specific gravity 20/20 deg C	0.880
Flash point	156 deg C
TBN	1.7 mg KOH/g
Sulphated ash	0.13

Performance Levels ;

JASO FB	API TA/TB/TC
ISO EGD
